The house of our dreams.....

We have now just signed to purchase thanks to Barbara at Geocasanet Immobiliare.

Having found our Tuscan dream home, we did several viewings to make sure it really was the right property for us. Barbara not only helped with our questions at each viewing, but also took time to explain to us the purchase process in Italy clearly. So that, before we made our offer we knew exactly what the various stages in the overall purchase would be, and the costs involved at each stage, as well as the costs of restoration.

Her friendly manner, positive outlook, and never ending ability to find a solution to every problem, made the purchase run more smoothly than we could ever have anticipated. (she even managed to get another 10 acres of land we weren't expecting for the same price!!!)

Laura, in the office at Geocasanet, we also found was always friendly and happy to help, the fact that they both speak English fluently as well as Italian was a great help.

We are happy to recommend Geocasanet to anyone wanting to find their dream Tuscan property in the future.

Antonio, Joanna & Massimiliano
