

Geocasanet

Testimonial

We found Barbara Marovelli most helpful and patient in helping us find a property: she did not waste time in showing us properties that did not 'tick the boxes' or that were much over budget, as some other agencies did.

On finding a suitable property, she arranged everything from the initial survey, including obtaining a tax code and opening a bank account, through to the final contract signing.

Work on the property has been overseen by her brother, Geometra Giancarlo Marovelli, and we consider that we have been well served.

Permission for certain work and actually getting the work done usually takes longer than expected by us, but this is normal in Italy!

Maintenance of the property and arrangements for letting has been efficiently dealt with. We had feedback from guests who had problems with the boiler: their call for help was responded to quickly and in a friendly, reassuring manner – Barbara managed to get an engineer to them on August bank holiday! Guests have commented on the high standard of cleanliness of the property, thanks to her staff.

We have compared other agency charges for maintenance and letting arrangements, and whilst we found lower charges, we feel that Geocasanet offers a first class service and have confidence that they will not let us down.
