

Geocasanet

Testimonial

We first met Barbara Marovelli when we were interested in buying a place in the commune of Bagni di Lucca. She was very patient and showed us many places. It was difficult to make a decision in a short time, so we came back to Australia and thought about it and decided to purchase an apartment.

This proved to be more difficult than we thought as the four of five apartments we saw sold just as we were about to make an offer. We were very disappointed, however, Barbara persevered and didn't give up. She eventually found an apartment for us and we are very happy with it. The sales process, which is quite complicated in Italy, proceeded without a hitch and we are now the proud owners of an apartment in Ponte a Serraglio.

Barbara, also arranged to have our telephone connected - another difficult process if one doesn't speak fluent Italian and introduced us to our bank manager who has been very accommodating and helpful. We wish our Australian bank manager would be as efficient and helpful.

Our experience in buying an apartment with Geocasanet has been a very positive one and we would recommend the Immobiliare to anyone wishing to buy property in the area.
