

Geocasanet

# Testimonial

We purchased our house in Bagni di Lucca about a year ago through the agency of Geocasanet in Borgo a Mozzano. We would certainly have no hesitation in highly recommending Barbara, Giancarlo and Laura for making the purchasing process as easy as possible. Right from the very start when we commenced looking for a property in the area we had full confidence in the Geocasanet staff to find a house that suited our requirements.

Within a very short time scale the property materialised and then despite there being some legal complications with the seller everything went very smoothly as far as the transaction was concerned.

Purchasing the house was as stress free an experience as anyone could hope for and we look forward to spending many happy years in our new home.
