

Geocasanet
Testimonial

Our family is very happy to recommend the services of Barbara Marovelli of Geocasanet Immobiliare, we were looking for a simple family residence, centrally located in the Tuscan Hills. With our main home and business being in New Zealand, we required a house that did not require a lot of renovation and upkeep, could be locked up for a few months of the year, partially furnished in a pleasant village setting – this Barbara achieved for us, whilst keeping within our budget.

The village of Motrone is set some 8 km up in the Tuscan Hills, above the Serchio River, is only 15 minutes from Borgo A Mozzano, where the local commune is based, and which has a variety of small and medium sized shops that fulfil your basic wants and needs, plus our local train station. Bagni di Lucca a spa town is just a few minutes up the road from Borgo, and our lovely walled provincial capital of Lucca is just some 30m minutes away to the south.

The village has been very welcoming and accommodating to us, we enjoy the company and camaraderie of our neighbours, their helpfulness and patience with our limited Italian.

Barbara assisted us during all phases of the buying process, this included introducing me to her brother Giancarlo who is a highly respected Geometra, because of the large distances involved it was not possible to pop across to Italy to view houses at long weekends or holidays, it was necessary to view the properties and conclude the sale via internet and telephone to a lesser extent. Whilst I would not generally suggest that you buy sight unseen via the internet as we did, the helpfulness and openness of Barbara allowed us to conclude the purchase of our Tuscany retreat using this method without fear or qualm.

We would like to recommend the services of Barbara Marovelli of Geocasanet Immobiliare and her staff and associates.
