

Geocasanet
Testimonial

Our experience of working with Barbara and her team at Geocasanet can only be described as positive.

The team very quickly were able to assess our needs in our purchase and were able to offer solutions with their invaluable local knowledge and experience.

They further provided a comprehensive service to help us negotiate our inexperienced way through the system of purchasing an Italian property, from advice on banking & legal support to taxation and mortgages.

They removed the potential stress of the long distance purchase with their excellent communication skill and we were confident that there was always a professional integrity and honesty in the business conducted on our behalf.

In conclusion we felt that we had value for our money (the purchaser pays the agent in Italy) from Geocasanet and would not hesitate to recommend them to others or re-use their services in the future.

Penny & Keith,
Northampton, UK
